

## Elk Grove Community Engagement Meeting #4

### McGarvey Elementary School

1.29.2024

What is a critical need/concern you have with the District?

#### New School

- New Secondary Schools in the Rancho Cordova area
- What is the timeline for a new school?
  - Within the next 5 years for an Elementary (Grant Line Rd)
  - Within the next 10 Years for a Middle/High School
- How many kids are needed for a middle school?
  - In the Ed Specs
- How long does a new school take?
  - 5 years
- When the Middle/High School goes in, the Middle School would be first, high schools follows
- Populations for Schools (ideally)
  - 1200 for Middle School
  - 2200 for High School
- When considering all of EGUSD Middle/School capacity limits, the district has capacity to house all students. Some schools are down in enrollment which offset those schools at capacity.
  - *Problem: Kids are being bussed sometimes 45 minutes from home*
- When considering a new school, distance had not been considered previously. It is being considered now. There are special circumstances that Elk Grove USD may qualify for in regards to distance.
- How much percentage of the area's mello roos are being spent on other parts of the district?
- How much does a school cost?
  - Elementary- \$60 Million
  - Middle/High- \$500 Million
- What are the off set costs?
  - Families are aging out.
- Kids at McGarvey will be bussed to other MS in the next 5 years. 10 years there will be a middle school.
- How many students are bussed out?
  - 1500 kids going to both – not capturing the private or out of district kids.
- Why can't EGUSD build a smaller school that isn't 2200?
- Which would be faster, take Rancho Cordova out of the EGUSD or wait for another school?
- Will the new Folsom Ranch MS/HS factor in the when the timeline for the new MS?
  - No

## Universal Transitional Kindergarten

- Integrated bathroom – concern...there isn't adequate space to house PK,TK,&K altogether. What is the plan at the older schools where there isn't adequate restrooms for the population?
- Bathrooms inside all TK/K classes
- Are all schools built to be year round schools?
  - Year Round Schools need more storage. Year Round Schools have more needs. Teachers move out of classrooms every 3 months. Not all of the pods have new storage.
- Does the increase of TK change the vision for where 6<sup>th</sup> graders will be?
  - At this point NO. The district hasn't had this conversation.
  - District already has a preschool program, not a lot will change with that.
  - The District does not have an interest in 2 year old Preschool.
- Room for TK and after school programs

## Safety

- I want a school that is safe. Some secondary schools are not safe
- Schools are supposed to be survivable and functional.

## Other Topics

- Stadiums at every HS
- Survey is open until February 9<sup>th</sup> – **STRONGLY ENCOURAGED TO TAKE SURVEY**
- Concerned that the survey is only available in 4 languages. People are feeling unheard.
  - Contact the district if another language is needed
- What is the starting population of PGHS and Albiani MS?
- FCUSD had a meeting at the same time. There is a need for a second meeting. Invite the city representatives.

# Response history

## What are the most critical needs to address in the Facilities Master Plan?

### Summary

A middle and high in the 95742 zip code. And secondarily the facilities teachers say they need to create close classroom communities and effective instruction (ie not roving and packing rooms up regularly).

Middle/High School is the priority for many of us who are driving our kids a great distance to Albiani or Smedberg. It is a hardship that we would like to see addressed ASAP.

ALL of our schools need to be closed campuses. There should not be access for anyone in the surrounding communities without checking in at our office/with our security first.
