### What are the critical needs/shortcomings?

- Safety Concerns – After school program, mostly at the middle and elementary schools. Parents are picking up kids at all different times for after school programs. There need to be a key pad for security so that the teachers don't need to stop what they are doing to open a fence, a gate or a door. Teachers are leaving the fences/gates open to not be bothered.
  - Accessibility – how easy is it for someone to come on campus
  - Lockdown drills – important to take time to analyze the safety of each school. Are the schools ready for “shelter in place”.
- Make sure that the community facilities are up to code (ADA) and safe.
- Level playing field – compared to other school districts at all levels. Other Districts are paying coaches a lot more money. Subs are also getting paid more in other districts. Elk Grove USD Not keeping pace with other districts.
- Testing Standards – comparable to SoCal
- Equity

- Athletic Facilities – inequities that are happening. New schools have everything and older schools do not. Older schools need to be modernized to match the newer schools. **Valley has the worst looking baseball fields.**
- Mental Health Support Spaces – Not enough
- Not enough bathrooms
- Safe spaces needs
- At the Elementary School level, tripping is an issue. Uneven blacktop is dangerous for kids. Root causing cracks in the parking lot.
- Flow of traffic in front of the schools. Not the proper stop signs. Creates gridlock traffic in a residential neighborhood.
- Miwok doesn't have a baseball field.
- Priority #1 for EGUSD is for kids to be **WARM, SAFE & DRY.**
